^{*} Attributable to stockholders of the parent

For The Year Ended September 30, 2023

Net Profit of \$7.6 billion (attributable to stockholders of the parent)

Restatement

There was a restatement of the prior year's results in our Life and Health Insurance and Pension Fund Management (LHP) segment and in the Holding Company (see note 5 to the financial statements for further details). The restatement in LHP segment was due to a non-recurring actuarial adjustment of \$4.3 billion, previously booked in the December 2022 quarter in relation to the 2022 financial year. The restatement in the Holding Company was in relation to certain staff benefits.

57

Group Performance

Operating income of \$137.3 billion declined by \$8.0 billion or 6%. This was primarily as a result of events in our LHP segment. Additionally, during the September quarter the Group made significant leadership and other changes, which resulted in restructuring and separation costs.

The reduced revenues, in addition to increased operating expenses impacted most of our key performance metrics. Return on assets (ROA) and return on equity (ROE) declined to 0.71% from 1.76% and 4.80% from 15.53%, respectively. The cost to income ratio increased to 82.54% up from 71.40% in the prior year. The decline in these metrics is due to certain non-recurring events. There is a renewed commitment to enhancing operational efficiency, optimising asset utilisation and reducing costs.

Banking and Investment Activities

Net revenues from banking and investment activities totalled \$113.0 billion for the year, which increased by 5% or \$5.7 billion over the previous year. The main contributors to the increase were net interest income and gain on foreign currency and investment activities, which increased by \$3.6 billion and \$3.7 billion, respectively. The growth in the loans and investment securities portfolios along with increased yields for some interest earning assets were the main drivers of the improved net interest income. Gains on investment activities were positively impacted by unrealised fair value gains on equity investments designated as fair value through profit and loss. Net fee and commission income improved by \$1.9 billion or 7%, primarily due to increased card transaction volumes in the Payment Services segment and credit related fees on new loans booked in the Consumer & SME Banking segment. These increases were partially offset by a 95% or \$2.6 billion increase in credit impairment provisions, which rose to \$5.3 billion, reflecting a normal level of expected credit losses (ECL). The previous financial year included reversals of ECL charges due to the improved economic outlook.

Insurance Activities

Net revenues from insurance activities totalled \$24.2 billion, a 36% or \$13.8 billion decrease from the restated prior year. The segment was impacted by increased net insurance costs due to higher net claims mainly from our LHP segment. The increased claims were primarily in relation to health and some additional general insurance claims. During the year there was also a reduction in reinsurance claim benefits, due to a prior year claim recovery.

For The Year Ended September 30, 2023

Net Profit of \$7.6 billion (attributable to stockholders of the parent)

Operating expenses totalled \$117.7 billion, increasing by 11% or \$12.0 billion over the prior year. During the September 2023 quarter additional staff costs related to separation and restructuring activities were incurred by NCBFG and National Commercial Bank Jamaica Limited (NCBJ). Included in these costs were separation provisions for the previous executive directors of the Company, which will be settled by a cash payment and the allotment of shares. There was also an increase in operational losses and property, vehicle, ABM maintenance and utilities during the year.

57

The Group is dedicated to identifying and implementing a range of cost-control measures. These initiatives will create a solid basis for future improvements in the cost to income ratio as well as more effective cost control while optimising operational efficiency. Shareholders can be confident in our ongoing efforts and commitment to prudently manage our costs to enhance the Group's financial performance.

Consolidated Statement of Financial Position

Total assets increased to \$2.23 trillion, an increase of 7% or \$147.1 billion over the prior year. The growth in the asset base was mainly due to increased loans and investment securities that were primarily funded by repurchase agreements, deposits, liabilities under annuity and insurance contracts and other borrowed funds. Our asset base continues to position the Group for sustained financial strength and enables us to take advantage of future opportunities.

Investment Securities and Reverse Repurchase Agreements

Investment securities, including pledged assets and reverse repurchase agreements, totalled \$1.12 trillion, an increase of 15% or \$142.2 billion over the prior year. The increase was due to improving asset prices, portfolio growth and the expansion of the Hold to Collect business model in NCBJ.

Loans and Advances

The Group's loans and advances, net of credit impairment losses, totalled \$613.8 billion, an increase of 6% or \$32.8 billion over the prior year. Non-performing loans totalled \$25.7 billion as at September 30, 2023, a 1% or \$264 million reduction from the prior year, which led to an improvement in our non-performing loan ratio, decreasing to 4.1%, from 4.4% in the prior year.

Deposits

Deposits totalled \$747.9 billion, a 5% or \$32.6 billion increase over the prior year. This continues to be the largest source of funding, as customers continue to display confidence in the Group.

Policyholders' Liabilities

Liabilities under annuity and insurance contracts increased to \$459.5 billion, up 4% or \$18.1 billion over the prior year.

For The Year Ended September 30, 2023

Net Profit of \$7.6 billion (attributable to stockholders of the parent)

Capital and Liquidity

Equity attributable to stockholders of the parent totalled \$170.4 billion, an increase of \$24.3 billion or 17% over the prior year, improving due to retained earnings reserve and lower unrealised fair value losses.

57

All our regulated entities continue to meet the applicable capital and liquidity regulatory requirements.

Dividends

The Board of Directors, at its meeting on November 17, 2023, approved a dividend payment of \$0.50 per ordinary stock unit.

Environment, Social and Governance (ESG)

The Group remains committed to conducting our operations in a manner that aligns with our core values and supports the long term sustainability of our business and the communities in which we operate. We have spent the year developing an ESG framework for the Group as we are invested in the key principles of ESG.

Our Board of Directors and the various Board and Management Committees provide robust oversight and continuously work to ensure that our policies and practices are aligned with the interests of our stakeholders.

For The Year Ended September 30, 2023

Net Profit of \$7.6 billion (attributable to stockholders of the parent)

Environment, Social and Governance (ESG) (continued)

We are proud of the progress we have made to date in our ESG journey and remain dedicated to the completion of the framework and incorporating ESG principles into our business strategy. We see ESG issues as both our moral duty and a key driver in long-term financial success. As a result, we will continue our journey and efforts to create a more ethical, inclusive and green environment.

2. Basis of preparation

The condensed consolidated interim financial statements (interim financial statements) for the year ended September 30, 2023 have been prepared in accordance with IAS 34, 'Interim financial reporting'. The interim financial statements should be read in conjunction with the annual financial statements for the year ended September 30, 2022 which have been prepared in accordance with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB).

The preparation of financial statements in conformity with IFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Group's accounting policies.

Update on the adoption of IFRS 17 - Insurance Contracts

The interim consolidated financial statements have been prepared using International Financial Reporting Standards (IFRS) 4 – Insurance Contracts. However, our insurance subsidiary, Guardian Holdings Limited, adopted IFRS 17 – Insurance Contracts effective January 1, 2023.
