Second Quarter 2020 Report to Shareholders

April 30, 2020 – The Board of Directors hereby releases the following unaudited financial results for NCB Financial Group Limited (NCBFG) and its subsidiaries (the Group) for the six months ended March 31, 2020.

NCBFG reports a net profit of \$13.4 billion for the first six months of the 2020 financial year. Net profit attributable to our stockholders was \$9.6 billion, a 23% or \$2.9 billion decline from the prior year. The prior year's results included a one off-gain of \$3.3 billion from the disposal of our interest in an associate company. Excluding this gain, net profit would have increased by \$408 million or 4% over the prior year.

Global financial markets have been severely impacted by the novel coronavirus (Covid-19). This unprecedented economic downturn also affected the performance of the Group during the month of March 2020. The main areas impacted so far by the economic downturn were the fair valuation of investment securities, which resulted in losses on investment activities for the quarter and loan provisioning.

We continue to focus on executing our strategic initiatives, which are concentrated on strengthening our core business lines and delivering innovative digital solutions to our growing customer base. We are focussed on fast tracking our digital solutions given the heightened safety and social distancing requirements by offering our customers alternate electronic channels to transact business. We will continue to adjust our operations as required to serve our various stakeholders more effectively.

Financial Results

For The Six Months Ended March 31, 2020

Net Profit of \$9.6 billion (attributable to stockholders of the parent)

888-NCB-FIRST | www.myncb.com | ncbinfo@jncb.com

Group Financial Performance

Our core performance showed improvement in some areas; however, we experienced impacts from the effects of the Covid-19 pandemic on investment activities and fee & commission income in the March quarter. The operating profit for the six months was \$13.1 billion, a 24% uplift over the prior year which was significantly due to the inclusion of six months of Guardian Holdings Limited's (GHL's) results in the current period with no comparable results in the prior year; given that the majority stake in GHL was acquired in May 2019. The improved operating profit was supported by revenues growing by \$18.3 billion; this was partially offset by a \$15.8 billion increase in expenses.

Banking and Investment Activities

The net result from banking and investment activities grew by 22% or \$7.3 billion to \$40.0 billion, mainly due to:

- Net interest income increasing by 40% or \$8.0 billion, primarily due to the consolidation of GHL's results. There was also growth in our loan portfolio, which accounted for 15% of the increase in interest income.
- Net fee and commission income growing by 39% or \$3.2 billion over the prior year, approximately half of this increase was attributable to the consolidation of GHL with the balance due to increased transaction volumes.
- These increases were partially offset by a reduction in gain on foreign currency and investment activities of 82% or \$4.9 billion primarily due to losses on equity securities and reduced foreign exchange income compared to the prior year.

Insurance Activities

The net result from insurance activities totalled \$14.8 billion, an increase of \$11.0 billion or 294% due to the consolidation of GHL.

Operating Expenses

Operating expenses of \$41.6 billion grew by 61% or \$15.8 billion; this was as a direct result of the consolidation of GHL.

Taxation

There was a tax credit of \$204 million compared to a tax charge of \$3.1 billion in the prior year representing a \$3.3 billion decline. The tax credit was due to certain entities within the Group having significant amounts of income that was not subject to income tax compared to taxable income in the March quarter.

Consolidated Statement of Financial Position

Investment Securities and Reverse Repurchase Agreements

Investment securities, including pledged assets and reverse repurchase agreements, totalled \$776 billion, an increase of 95% or \$377 billion over the prior year; mainly driven by the consolidation of GHL.

Financial Results

For The Six Months Ended March 31, 2020

Net Profit of \$9.6 billion (attributable to stockholders of the parent)

888-NCB-FIRST | www.myncb.com | ncbinfo@jncb.com

Consolidated Statement of Financial Position (continued)

Loans and Advances

The Group's loans and advances, net of credit impairment losses, totalled \$431 billion, an increase of \$47.1 billion or 12% over the prior year. We continue to experience strong growth in our portfolio. Non-performing loans for the Group totalled \$25.8 billion as at March 31, 2020 (March 31, 2019: \$19.2 billion) and represented 5.8% of the gross loans compared to 5.0% as at March 31, 2019.

Deposits

Customer deposits totalled \$520 billion, a notable increase of \$41.6 billion or 9% over the prior year demonstrating our customers' confidence in the Group. This continues to be our largest source of funding.

Policyholders' Liabilities

Liabilities under annuity and insurance contracts increased to \$376 billion at March 31, 2020 due to the consolidation of GHL.

Total Assets, Capital and Liquidity

Total assets of \$1.6 trillion increased by 66% or \$639.7 billion over the prior year, due to the consolidation of GHL.

Stockholders' equity decreased by 2% or \$3.0 billion to \$134 billion as at March 31, 2020. This was mainly due to the decline in global bond prices.

All our regulated entities have exceeded the applicable capital and liquidity regulatory requirements.

Dividends

The Board of Directors, at its meeting on April 30, 2020, decided not to declare an interim dividend in the prevailing circumstances arising from the COVID-19 pandemic. The Board further determined that, subject to the occurrence of any relevant changes, the Board would be unlikely to declare interim dividends for the remainder of the financial year.

Corporate Social Responsibility (CSR)

Our CSR policy focuses on four main areas: community outreach, ethics, employment practices and effective stakeholder engagement. The Group is committed to engaging in activities that will balance the long-term viability of our business with social and environmental accountability while recognising its role as a corporate leader in the region.

Nation Building

- NCBFG is keen on supporting democracy and a fair and transparent electoral process, which will ultimately contribute to nation building and as such, we have contributed equally to each of the two major Jamaican political parties.
- Our Foundations - N.C.B. Foundation, Guardian Group Foundation and Clarien Foundation - continued voluntary and outreach work in areas such as health, education and community development, reaching a wide cross-section of persons across the region.

Financial Results

Covid-19

We have been closely monitoring the developments of Covid-19 across the region and established task forces within our major subsidiaries, which are responsible for the management of the response to Covid-19 developments. We have been assessing the impact on our employees, customers, commercial partners, suppliers, communities and other stakeholders along with the projected impact on liquidity, capital and our general financial performance.

Our main priority during this time is continuing to provide an uninterrupted environment for our customers to transact business safely. We have also provided relief and assistance to our clients by introducing a few measures, which include:

- National Commercial Bank Jamaica Limited temporarily waiving some of its banking transaction fees and moving some transactions to digital channels.
- Clarien Bank deferring loan payments for three months for all residential mortgages, personal loans and commercial loans less than US\$2 million. A credit card skip payment programme was also introduced for April to June 2020 with no applicable fees.
- GHL utilising electronic methods for new business and referrals, collecting premiums and reimbursing health claims as well as allowing remote access for certain transactions.

This is a difficult time for us across the region particularly in the context of the economic uncertainties. We want to assure our stakeholders that their safety and financial wellbeing are our main priorities and we are here to help them through this pandemic. We have been working to make our services as accessible as possible as well as ensuring our self-service options are easy and convenient while complying with all safety, sanitisation and hygiene protocols. As the situation continues to evolve, we are working to minimise disruptions.

We urge everyone to practise the recommended safety measures and we will continue to protect our employees and customers by minimising face-to-face interactions and offering suitable alternative channels. In this challenging time, we are grateful to the persons at the front line of this crisis and thank them for their continued service.

NCBFG remains committed to building the communities we serve through the work of our foundations, our subsidiaries and staff. We are grateful for the support of our valued stakeholders. Thank you for your continued loyalty, confidence and support; ***Put Your Best Life Forward.***

ON BEHALF OF THE BOARD

Patrick Hylton, President and Group Chief Executive Officer

National Commercial Bank Jamaica Limited | Clarien Group Limited | Guardian Holdings Limited

1. Identification and Principal Activities

NCB Financial Group Limited ("the Company") is a financial holding company, incorporated and domiciled in Jamaica. The Company is 52.46% (March 31, 2019 - 53.02%) owned by AIC (Barbados) Limited. The ultimate parent company is Portland Holdings Inc., incorporated in Canada. Portland Holdings Inc. is controlled by Hon. Michael A. Lee-Chin, O.J., Chairman of the Company.

The Company's registered office is located at 32 Trafalgar Road, Kingston 10, Jamaica.

The Company's ordinary stock units are listed on the Jamaica Stock Exchange and the Trinidad and Tobago Stock Exchange.

2. Basis of preparation

The condensed consolidated interim financial statements (interim financial statements) for the six months ended March 31, 2020 have been prepared in accordance with IAS 34, 'Interim financial reporting'. The interim financial statements should be read in conjunction with the annual financial statements for the year ended September 30, 2019 which have been prepared in accordance with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB).

The preparation of financial statements in conformity with IFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Group's accounting policies.

IFRS 16, 'Leasing'

Effective October 1, 2019, the Group adopted IFRS 16 'Leasing' which replaces IAS 17. Under IAS 17, lessees were required to make a distinction between a finance lease (on statement of financial position) and an operating lease (off statement of financial position). IFRS 16 now requires lessees to recognise a lease liability reflecting future lease payments and a 'right-of-use asset' for virtually all lease contracts. The IASB has included an optional exemption for certain short-term leases and leases of low-value assets; however, this exemption can only be applied by lessees.

For lessors, the accounting stays almost the same. However, as the IASB has updated the guidance on the definition of a lease (as well as the guidance on the combination and separation of contracts), lessors will also be affected by the new standard. At the very least, the new accounting model for lessees is expected to impact negotiations between lessors and lessees. The Group has concluded that the adoption did not have a significant impact on the financial statements of the Group.

3. Segment reporting

The Group is organised into the following business segments:

- Consumer & SME banking – This incorporates the provision of banking services to individual and small and medium business clients and pension remittance services.
- Payment services – This incorporates the provision of card related services.
- Corporate and commercial banking – This incorporates the provision of banking services to large corporate clients.
- Treasury & correspondent banking – This incorporates the Group's liquidity and investment management function, management of correspondent bank relationships, and relationships with other financial institutions as well as foreign currency dealing activities.
- Wealth, asset management and investment banking – This incorporates stock brokerage, securities trading, investment management and other financial services provided by certain overseas subsidiaries.
- Life and health insurance & pension fund management – This incorporates life and health insurance, investment and pension fund management services.
- General insurance - This incorporates property and casualty insurance services.

The Group's trustee services, property development and the outstanding transactions and balances of certain inactive subsidiaries are classified as Other for segment reporting.

4. Impact of Corona Virus (COVID-19)

In March 2020, the World Health Organisation declared COVID-19 a global pandemic as the virus had rapidly spread worldwide. The impact on the global markets has been significant with amplified concerns about the escalating economic costs of the outbreak. Regionally, the stock exchange indices have declined. The Jamaica Stock Exchange index decline was initially sparked by investors liquidating their portfolios to prepare for large equity transactions and further exacerbated by fears among investors regarding the impact of the virus on the regional economies and the ensuing effect on publicly listed companies.

The impact of COVID-19 has been far reaching as it has caused significant impact on the regional economies which are highly reliant on imports for growth and development, and on exports for income. The dislocation in sectors of the economy, such as the tourism, manufacturing, transport and logistics and other areas is expected to have a negative impact on the Group's various business segments which are exposed to the potential economic effects.

The economic downturn has had an initial impact for the quarter ended March 31, 2020, resulting in losses on foreign currency and investment activities, credit impairment losses, reduction in fee and commission income and decreases in the carrying values of investment securities. The economic downturn is still evolving and we continue to monitor and assess the overall impact on the Group.
